

WEBINAR PROGRAM

International Webinar on

Dermatology and Cosmetology

May 25- 26, 2023 | GMT +4

DERMATOLOGY 2023

Day 1: Ma	y 25, 2023 ((Thursday)
-----------	--------------	------------

Introduction: 09:45 - 10:00

KEYNOTE PRESENTATION	
10:00 - 10:30	Title: Androgen receptor, oxidative stress and inflammation at the crossroads of skin diseases
	Yiumo Michael Chan, AnnJi Pharmaceutical, Taiwan
SPEAKER PRESENTATIONS	
10:30 - 10:50	Title: Double serum sampled glomerular filtration rate measurement with technetium- 99m diethylenetriamine-penta acetate for evaluation of renal functions in patients with psoriasis vulgaris
	Rukiye Yasak Guner, Sivas Cumhuriyet University, Turkey
10:50 - 11:10	Title: Clinical evaluation after introduction of stem cell supernatant Biocell Shot 65 by electroporation
	Ryusuke Suzuki, Shem International Inc, Japan
11:10 - 11:30	Title: New treatment modalities for acne vulgaris
	Melis Gonulal, Izmir Tepecik Training and Research Hospital, Turkey
11:30 - 11:50	Title: Possibilities of aesthetic medicine in the treatment of vulvar lichen sclerosis
	Nadezhda Chernova, Moscow Research and Practical Center for Dermatovenereology and Cosmetology, Russian Federation
	Maria Proskurina, Moscow Research and Practical Center for Dermatovenereology and Cosmetology, Russian Federation
11:50 - 12:10	Title: Scars
	Engy Abd El-Hamid El-Azhary, Ministry of Health Hospitals, Egypt
12:10 - 12:30	Title: Clinical responses of subcutaneous abdominal fat and rectus abdominis muscle thicknesses following treatment with a high-intensity focused electromagnetic field device
	Sky Wong, Medaes Medical Centre, Hong Kong
	Break: 12:30 - 13:30
13:30 -13:50	Title: An exploratory study to identify the gender-based purchase behavior of consumers of natural cosmetics
	Srivatsa Hosur Srinivasan, M.S.Ramaiah University of Applied Sciences, India
13:50 - 14:10	Title: Augmentation rhinoplasty and tip plasty in Indian noses: Tips and tricks to achieve consistently good results
	Kapil S Agrawal, GSMC and KEM Hospital, India

14:10 -14:30	Title: Factors involved in the decision of Iranian men to undergo rhinoplasty: A grounded theory study
	Zeinab Ghaffari, Kermanshah University, Iran
14:30 - 14:50	Title: An investigation into the acute and subacute toxicity of extracts of <i>Cassipourea</i> <i>flanaganii</i> crude stem bark <i>in vivo</i>
	Nomakhosi Mpofana, University of KwaZulu-Natal and Durban University of Technology Hospital, South Africa
14:50 - 15:10	Title: Severe exercise-induced urticaria with muscle injury: A case report
	Mithra S, Chettinad Super Speciality Hospital, India
15:10 - 15:30	Title: Paranasal augmentation of the piriform aperture in the functional and aesthetic aspect. Age-related changes in the piriform aperture. Systematic review of paranasal augmentation techniques
	Dmitrii Pshennikov, Ryazan State Medical University, Russian Federation
15:30 - 15:50	Title: Skin revitalization with intradermal hyaluronan hybrid cooperative complexes: What to expect?
	Isadora Rosan, Sao Paulo University, Brazil
	Break: 15:50 - 16:20
16:20 - 16:40	Title: Liquid nitrogen in the treatment of patients with alopecia areata of the scalp
	Vladimir Sanchez, University of Medical Sciences of Santiago de Cuba, Cuba
16:40 - 17:00	Vladimir Sanchez, University of Medical Sciences of Santiago de Cuba, Cuba Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses of the face
16:40 - 17:00	Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses
16:40 - 17:00 17:00 - 17:20	Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses of the face
	Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses of the faceCelia Luiza Petersen Vitello Kalil, Dermatological Clinic Dra Celia Kalil, Brazil
	Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses of the faceCelia Luiza Petersen Vitello Kalil, Dermatological Clinic Dra Celia Kalil, BrazilTitle: Stomal and peristomal complications management: A retrospective study
17:00 - 17:20	 Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses of the face Celia Luiza Petersen Vitello Kalil, Dermatological Clinic Dra Celia Kalil, Brazil Title: Stomal and peristomal complications management: A retrospective study Jill Michalak, Jobst Vascular Institute/ProMedica Health System, USA
17:00 - 17:20	 Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses of the face Celia Luiza Petersen Vitello Kalil, Dermatological Clinic Dra Celia Kalil, Brazil Title: Stomal and peristomal complications management: A retrospective study Jill Michalak, Jobst Vascular Institute/ProMedica Health System, USA Title: A hard stone to break: Melasma Q switch laser experience in Guatemala Jose David Rosales Figueroa, Centro Medico Integral and Centro de Especialidades Médicas
17:00 - 17:20	 Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses of the face Celia Luiza Petersen Vitello Kalil, Dermatological Clinic Dra Celia Kalil, Brazil Title: Stomal and peristomal complications management: A retrospective study Jill Michalak, Jobst Vascular Institute/ProMedica Health System, USA Title: A hard stone to break: Melasma Q switch laser experience in Guatemala Jose David Rosales Figueroa, Centro Medico Integral and Centro de Especialidades Médicas de Oriente, Guatemala
17:00 - 17:20	 Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses of the face Celia Luiza Petersen Vitello Kalil, Dermatological Clinic Dra Celia Kalil, Brazil Title: Stomal and peristomal complications management: A retrospective study Jill Michalak, Jobst Vascular Institute/ProMedica Health System, USA Title: A hard stone to break: Melasma Q switch laser experience in Guatemala Jose David Rosales Figueroa, Centro Medico Integral and Centro de Especialidades Médicas de Oriente, Guatemala
17:00 - 17:20	Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses of the face Celia Luiza Petersen Vitello Kalil, Dermatological Clinic Dra Celia Kalil, Brazil Title: Stomal and peristomal complications management: A retrospective study Jill Michalak, Jobst Vascular Institute/ProMedica Health System, USA Title: A hard stone to break: Melasma Q switch laser experience in Guatemala Jose David Rosales Figueroa, Centro Medico Integral and Centro de Especialidades Médicas de Oriente, Guatemala End of Day 01 Day 2: May 26, 2023 (Friday)
17:00 - 17:20	Title: Short-term follow-up of a randomized controlled trial of microneedling followed by 5% or 0.5% 5-fluorouracil versus 5% or 0.5% 5-fluorouracil alone in actinic keratoses of the face Celia Luiza Petersen Vitello Kalil, Dermatological Clinic Dra Celia Kalil, Brazil Title: Stomal and peristomal complications management: A retrospective study Jill Michalak, Jobst Vascular Institute/ProMedica Health System, USA Title: A hard stone to break: Melasma Q switch laser experience in Guatemala Jose David Rosales Figueroa, Centro Medico Integral and Centro de Especialidades Médicas de Oriente, Guatemala Lord of Day 01 Day 2: May 26, 2023 (Friday) Introduction: 10:45 - 11:00

SPEAKER PRESENTATIONS	
11:30 - 11:50	Title: Treatment of exogenous hyperpigmentary disorders following silver ion-related chemical exposure with 1,064nm Q-switched laser: A 10-year follow-up
	Jiayi Feng, Chinese Academy of Medical Sciences and Peking Union Medical College, China
11:50 - 12:10	Title: Application of polyurethane foam dressing at split-thickness skin graft recipient site in patients with diabetic wounds: A case series
	Luinio Tongson, Capitol Medical Center, Philippines
12:10 - 12:30	Title: Pilar leiomyomas. Dermoscopy pattern of a rare entity
	Meryem Soughi, Hospital University Hassan II Fes, Morocco
12:30 - 12:50	Title: Efficacy of virechana in vitiligo
	Salim Musa Mulla, LRP Ayurvedic Medical College, India
12:50 - 13:10	Title: The <i>in vitro</i> effect of <i>Galenia africana</i> on malignant melanoma and human keratinocytes
	Farzana Fisher (Rahiman), University of the Western Cape, South Africa
13:10 - 13:30	Title: An experience on atrophic acne scar treatment from Nepal
	Suchana Marahatta, B.P. Koirala Institute of Health Sciences, Nepal
	Break: 13:30 - 14:30
14:30 - 14:50	Break: 13:30 - 14:30 Title: Reconstruction of full-thickness nasal alar defect using modified jigsaw puzzle flap
14:30 - 14:50	
14:30 - 14:50 14:50 - 15:10	Title: Reconstruction of full-thickness nasal alar defect using modified jigsaw puzzle flap
	Title: Reconstruction of full-thickness nasal alar defect using modified jigsaw puzzle flap Siarhei Ivanou, Educational Institution Gomel State Medical University, Republic of Belarus Title: The efficacy and safety of micro-needling combined with tacrolimus versus
	Title: Reconstruction of full-thickness nasal alar defect using modified jigsaw puzzle flap Siarhei Ivanou, Educational Institution Gomel State Medical University, Republic of Belarus Title: The efficacy and safety of micro-needling combined with tacrolimus versus tacrolimus monotherapy for vitiligo treatment: A systematic review and meta-analysis
14:50 - 15:10	Title: Reconstruction of full-thickness nasal alar defect using modified jigsaw puzzle flapSiarhei Ivanou, Educational Institution Gomel State Medical University, Republic of BelarusTitle: The efficacy and safety of micro-needling combined with tacrolimus versus tacrolimus monotherapy for vitiligo treatment: A systematic review and meta-analysisHadeel Abdullah Maaddawi, King Saud bin Abdulaziz University for Health Sciences, KSATitle: Cone-beam computed tomographic comparison of chin symphysis bone particles and allograft versus iliac crest bone graft alone for reconstruction of alveolar bone
14:50 - 15:10	Title: Reconstruction of full-thickness nasal alar defect using modified jigsaw puzzle flap Siarhei Ivanou, Educational Institution Gomel State Medical University, Republic of Belarus Title: The efficacy and safety of micro-needling combined with tacrolimus versus tacrolimus monotherapy for vitiligo treatment: A systematic review and meta-analysis Hadeel Abdullah Maaddawi, King Saud bin Abdulaziz University for Health Sciences, KSA Title: Cone-beam computed tomographic comparison of chin symphysis bone particles and allograft versus iliac crest bone graft alone for reconstruction of alveolar bone defects in cleft patients
14:50 - 15:10 15:10 -15:30	 Title: Reconstruction of full-thickness nasal alar defect using modified jigsaw puzzle flap Siarhei Ivanou, Educational Institution Gomel State Medical University, Republic of Belarus Title: The efficacy and safety of micro-needling combined with tacrolimus versus tacrolimus monotherapy for vitiligo treatment: A systematic review and meta-analysis Hadeel Abdullah Maaddawi, King Saud bin Abdulaziz University for Health Sciences, KSA Title: Cone-beam computed tomographic comparison of chin symphysis bone particles and allograft versus iliac crest bone graft alone for reconstruction of alveolar bone defects in cleft patients Davood Davari, Islamic Azad University Isfahan (Khorasgan) Branch, Iran Title: Report of a successful diode laser treatment for intra-oral vascular malformation
14:50 - 15:10 15:10 -15:30	 Title: Reconstruction of full-thickness nasal alar defect using modified jigsaw puzzle flap Siarhei Ivanou, Educational Institution Gomel State Medical University, Republic of Belarus Title: The efficacy and safety of micro-needling combined with tacrolimus versus tacrolimus monotherapy for vitiligo treatment: A systematic review and meta-analysis Hadeel Abdullah Maaddawi, King Saud bin Abdulaziz University for Health Sciences, KSA Title: Cone-beam computed tomographic comparison of chin symphysis bone particles and allograft versus iliac crest bone graft alone for reconstruction of alveolar bone defects in cleft patients Davood Davari, Islamic Azad University Isfahan (Khorasgan) Branch, Iran Title: Report of a successful diode laser treatment for intra-oral vascular malformation lesion
14:50 - 15:10 15:10 -15:30 15:30 - 15:50	 Title: Reconstruction of full-thickness nasal alar defect using modified jigsaw puzzle flap Siarhei Ivanou, Educational Institution Gomel State Medical University, Republic of Belarus Title: The efficacy and safety of micro-needling combined with tacrolimus versus tacrolimus monotherapy for vitiligo treatment: A systematic review and meta-analysis Hadeel Abdullah Maaddawi, King Saud bin Abdulaziz University for Health Sciences, KSA Title: Cone-beam computed tomographic comparison of chin symphysis bone particles and allograft versus iliac crest bone graft alone for reconstruction of alveolar bone defects in cleft patients Davood Davari, Islamic Azad University Isfahan (Khorasgan) Branch, Iran Title: Report of a successful diode laser treatment for intra-oral vascular malformation lesion Marzieh Alimohammadi, Shahid Beheshti University, Iran

16:40 - 17:00	Title: The importance of a dermatological examination in patients with exclusively aesthetic complaints	
	Emilly Neves Souza, Universidade de Sao Paulo (USP), Brazil	
17:00 - 17:20	Title: Scaffolding for stem cell therapy: Treatment of spinal cord injury	
	Barandon Lucke-Wold, University of Florida, USA	
17:20 - 17:40	Title: Five years follow-up of patients with facial basal cell carcinoma treated with a combination of interferon alpha-2b and gamma	
	Vladimir Sanchez, University of Medical Sciences of Santiago de Cuba, Cuba	
17:40 - 18:00	Title: Use of fotodinamic therapy for kerion celsi's treatment	
	Tania Meneghel, Faculdade de Medicina de Botucatu, Brazil	
Award and Closing Ceremony
